

## WINTER AFTERNOON TEA

*History shows that Anna, the 7th Duchess of Bedford and a life-long friend of Queen Victoria, complained of a 'sinking feeling' mid-afternoon and requested that some light food and a pot of tea (usually Darjeeling) be brought to her private living quarters to help ward off her hunger.*

*Thereafter, the Afternoon Tea was born and we like to think ours is the perfect nod to Anna, in the 800-year setting of our Manor House.*
